FARHAN NUR

FULL STACK DEVELOPER

Gopalganj, Bihar | +91 9113739193 | Email| LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student with hands-on experience in React.js, JavaScript, Node.js, Express.js, MongoDB, and REST APIs. Experienced in frontend and backend development, database integration, and cybersecurity projects, with an interest in building secure and scalable software.

EDUCATION

B.TECH – COMPUTER SCIENCE AND ENGINEERING 2023 – 2027

Integral University, Lucknow, India

Relevant Courses: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Cybersecurity, Web Development

KEY PROJECTS / ACHIEVEMENTS

- **Roommate Finder Web App |** React.js | Node.js | Express.js | MongoDB
  - Developed a full-stack web application to help users find compatible roommates.
  - Built reusable React components and integrated the frontend with REST APIs using Axios.
  - Developed backend routes and application logic with Node.js and Express.js and used MongoDB for application data.
  - Implemented form handling and validation for reliable user input.
- **Grozo – Grocery Delivery Web App |** React.js | Vite | JavaScript | CSS3
  - Developed a responsive frontend-only grocery delivery application inspired by modern quick-commerce platforms.
  - Implemented product search, category filtering, cart management, quantity controls, checkout, and location selection.
  - Built reusable React components and added LocalStorage persistence and toast notifications.
  - Optimized the interface for desktop, tablet, and mobile devices.
- **Cloud-Shield – Cloud-Based Ransomware Detection and Recovery |** Node.js | Express.js | MongoDB | JWT
  - Developing an ongoing cybersecurity project focused on ransomware detection, secure authentication, and recovery support.
  - Implemented registration/login, password hashing, HttpOnly cookie authentication, refresh-token rotation, token reuse detection, logout, and role-based access control.
  - Built backend foundations using Node.js, Express.js, MongoDB/Mongoose, JWT, bcrypt, and SHA-256 integrity checking.
- **Bharat Fasal – Smart India Hackathon 2026 |** React | Node.js | Express.js | Python/ML | MongoDB | Firebase
  - Contributing to an SIH 2026 solution for strengthening market linkages and price discovery for farmers.
  - Worked on backend and data-flow concepts covering market prices, buyer demand, crop lots, farmer-buyer matching, logistics, and transaction tracking.
  - Conducted research on market-data sources, market intelligence, smart matching, and the proposed technical architecture.
  - Role: Backend Developer & Research | Team: Beyond Binary

SKILLS

Languages: JavaScript, HTML5, CSS3
Frontend: React.js, Vite, Responsive UI, React Hooks
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, Mongoose, Firebase
Security: JWT, bcrypt, HttpOnly Cookies, RBAC, SHA-256
Tools: Git, GitHub, Postman, VS Code, Axios

CERTIFICATIONS / ADDITIONAL

- Python 101 for Data Science — IBM
- Data Science and Machine Learning with Python — Integral University
- Relevant Coursework — Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Cybersecurity, Web Development
- Leadership — Team leadership across college Minor and Major Projects
- Participant — Smart India Hackathon 2026 participant;
